SULFAMIC ACID CLEANER

PROFESSIONAL GRADE SEALERS, CARE and MAINTAINENCE PRODUCTS

PRO SEAL SULFAMIC ACID CLEANER

A concentrated crystalline form of sulfamic acid for use in a water solution to remove cement smears, excess grout, efflorescence, and other mineral deposits.

TECHNICAL PROFILE

Viscosity: N/A
Solvent: N/A
Active Solids: N/A
Spec. Gravity: 1.25 g/cm³
Appearance: White Odorless Crystals
pH: 1% Solution is 1.18 @ 25o C
Shipping Name: Sulfamic Acid

PACKAGING

One pound (16oz) Containers
Five pound (80oz) Containers

APPROXIMATE COVERAGES: : 300-700 sqft when mixed to 1 gallon of water

RECOMMENDED USE: For glazed ceramic tile, unglazed quarry tile, unpolished natural stone, brick & masonry surfaces not harmed by mild acid solutions, polished marble, terrazzo, colored cement tiles. PRO-SEAL Sulfamic Acid Crystals may be used to etch smooth concrete in preparation for clear coat applications.

SURFACE PREPARATION:

Concrete surfaces and Portland Cement products must be cured a minimum of 10 days. Remove all grease and oil deposits with PROFLEX PRO-SEAL Tile and Grout cleaner. Saturate the area with clean water prior to using acid crystals. Ensure the floor surface is kept wet during application to prevent burning or pigment loss.

APPLICATION: ALWAYS TEST A SMALL AREA AND WAIT 24 HOURS TO DETERMINE PROPER DILUTION FOR DESIRED RESULTS. MIXING AND DILUTION: ALWAYS ADD ACID TO WATER, NEVER WATER TO ACID

For heavy duty cleaning and Etching applications, mix 12oz crystals to 1 gallon water

For installations with gray grout, Mix 8-10 oz crystals to 1 gallon water

For Efflorescence removal, mix 3-4 oz of crystals to 1 gallon water.

Always work in small areas, apply solution with a clean sponge or mop and allow it to stand for 2mins. Keep area treated wet at all times. Scrub treated area with a nylon brush to loosen dirt, soiling or cement haze. Double rinse the area with clean water. Allow the floor to completely dry prior to application of sealer products.

USE WITH EXTREME CAUTION .

Avoid breathing dust and contact with skin, eyes, or ingestion. Always wear protective clothing and eyewear when using this product. Keep out of reach of children and pets.

FIRST AID PROCEEDURES.

Skin: Wash area thoroughly with water. Consult physician if irritation persists. Eyes: Flush with water for 15 minutes and seek immediate medical attention. Ingestion: Do not induce vomiting, Drink large quantities of water and seek immediate medical attention. Inhalation: Remove victim to fresh air, drink a large quantity of water and seek immediate medial attention.
