

# PROFLEX GROUT RELEASE

## PROFESSIONAL GRADE SEALERS, CARE and MAINTAINENCE PRODUCTS

### PRO-SEAL GROUT RELEASE

Make grouting easier by applying PRO SEAL Grout Release prior to grouting. A professional grade formula protects tile and stone surfaces from stains during grout application, and makes cleaning of the grouted area easier over traditional methods.

### PACKAGING

One US Gallon Containers

### APPROXIMATE COVERAGES:

Coverage will yield 300-600 sq.ft. per 1gallon, per application coat. Actual coverage will vary based on type of surface, surface porosity and texture, application temperature, humidity, and method of application.

### APPLICATION : READ ALL INSTRUCTIONS PRIOR TO USE

Preparation: Clean area with PROFLEX Tile and Grout Cleaner and dry area prior to application. Due to variations between surfaces, PROFLEX recommends doing sample applications in non-conspicuous areas prior to full installation. Some shading of surface may occur. It is the responsibility of the user to determine the suitability of the product for its intended use.

Application: DO NOT DILUTE OR THIN PRODUCT FOR ANY REASON. Apply GROUT RELEASE evenly to surface using a clean towel, paint roller or brush. Allow 30 minutes for product to work into surface (Note porous surfaces may require additional wait time). Follow grout manufacturers instructions for grouting. Residue from PROFLEX GROUT RELEASE should be cleaned from finish surfaces during normal grout clean-up. Dried residue can be removed with PROFLEX Tile and Grout Cleaner.

WARRANTY: Due to the nature of product use, PROFLEX will only warrant the product to be free from manufacturing defects to only the purchase price of the product. No warranties or liability will be assumed for damages of any kind. The suitability of the product for an application is solely up to the user.

CAUTION: Ensure product containers are kept closed when not in use and store in a cool, dry, area. Use only in well ventilated areas and avoid inhalation of vapors. Keep out of reach of children and pets. FIRST AID: Skin, wash thoroughly affected area with soap and water. Eyes, wash for 15 minutes with water and immediately seek medical attention. Ingestion, Seek immediate medical attention. Do not induce vomiting unless directed by a physician. Inhalation, remove victim to fresh air and seek medical assistance.
