**Tested on a 6" concrete slab with a drop ceiling. Engineered wood plank installed over MGSC and PWA 600 adhesives.		

Limitations

Do not use over concrete treated with sealers or curatives.

Do not use over gypsum based patches or underlayments.

Do not use for below grade applications.

Product will not negate excessive sub floor moisture problems such as hydrostatic pressure. Hydrostatic pressure occurs when the sub floor restricts a body of water from flowing along its normal path. This pressure is unpredictable and can cause failure of the sub floor and any associated coating and barrier system.

Do not use if the floor moisture is outside the floor moisture content guidelines of dry in appearance, dry to the touch and fully cured concrete.

* For hardwood installations only
